

# ***AWE Early Literacy Station***

## **Grant Guidelines**

*Thank you for your interest in an AWE Early Literacy Station! This page will provide you with general application guidelines to reference as you prepare your application for submission.*

---

### **Application Guidelines**

Twenty-two (22) AWE Early Literacy "All in One" with Touch Screen computers are available to Indiana public libraries (*limit of one (1) computer per library system*). Applicants must demonstrate their **need** and describe how the computer will be used to **facilitate early literacy** in their library.

Applications will be reviewed and scored based on demonstrated need and plans for use. Applicants will be notified of their status by March 15, 2013 and computer delivery will be arranged at no cost to the library.

---

### **Application Information**

The application has two sections. Section one is general information and section two is a narrative section. We do expect you will need **at minimum one paragraph** to answer most questions in the narrative section.

Narrative questions:

1. Explain how this computer system will benefit your library's patrons and explain your need for them.
  2. Does your library have any specific populations who would benefit from the addition of an AWE Early Literacy PC to your library? If so, please describe.
  3. Provide information about other early literacy activities your library is involved in.
  4. Describe how the computer system will be incorporated into your existing early literacy efforts.
- 

### **Application Submission**

To apply, complete the application at: <https://www.surveymonkey.com/s/X5THFRC>  
Applications must be submitted by 11:00PM on January 15, 2013.

If you are unsure how to answer an application question, **please call the Children's Literacy Consultant for help at (317) 234-5649.**

---

### **Required Reporting**

All AWE computer recipients will be required to complete a brief follow-up survey in fall of 2013.

---

*This project is made possible by a Library Services and Technology Act grant from the U.S. Institute of Museum and Library Services.*
